CANINE COLLEGE

Public Access Training Log

One outing per sheet. Print extra copies or complete the fields digitally.

Handler

Dog

Date

Location / type of setting

Start time

End time

Active training minutes

Plan the outing

Goal and success criteria: what should the dog do, and under what conditions?

Environment: crowd level, noise, surfaces, distractions and distance

Record what happened

Skills / tasks practiced; attempts and successes where useful (for example, 4 of 5)

Observed behavior: prompts, help needed, stress signs, breaks and recovery

What went well? What needs work? Next outing goal or adjustment

Count active training time once, even when practicing several skills together.

Keep observations specific: what happened, what the dog did, and what you changed.

CANINE COLLEGE

Training Hours Summary

Use alongside the individual outing sheets to track training over time.

Handler

Dog

Record period

Previous cumulative public access minutes

Enter active training minutes. Give each outing a matching date or record number.

Date	Location / record reference	Minutes	Cumulative minutes

Total public access minutes this period

Total public access hours (minutes divided by 60)

Use the outing sheet for details; this summary tracks public access time.

Keep separate records for obedience and task training completed outside these outings.

This log documents training progress. It does not certify a service dog.
